EDUCATION

American University of Sharjah

Sharjah, UAE

Bachelor of Science in Computer Science

2023 - Present

- CGPA: 3.45 (As of Fall '26 Semester)

WORK EXPERIENCE

BlueRidge IT

Dubai, UAE

AI & Power Platform Developer Intern

June 2026 – August 2026

- Developed a multi-agent RFP Assistant in **Microsoft Copilot Studio** to analyze RFPs, generate compliance matrices, retrieve prior proposal knowledge, and support proposal drafting
- Built solutions with **Microsoft Power Apps** and **Power Automate**, including a sales pricing calculator and automated lead-data workflows
- Designed and tested specialized AI agents for routing, renewal reporting, calendar reminders, and knowledge discovery across Microsoft 365
- Evaluated AI-generated proposals against real client submissions and reusable templates to improve section coverage, formatting fidelity, and submission readiness

LEADERSHIP AND NOTABLE PROJECT

Korean Cultural Club — Sharjah, UAE

Treasurer

- Managed club budget, expense tracking, and financial planning for on-campus events
- Coordinated with executive board members to allocate funds and ensure cost-effective event execution
- Assisted with organizing cultural events and liaising with university offices for approvals

LinkUp — Student Collaboration Web Application — American University of Sharjah

Team Lead / Full-Stack Developer | Fall 2025

- Led a team in developing a full-stack web application connecting students for projects, groups, and messaging
- Built dynamic frontend components using **HTML, CSS, JavaScript, and Bootstrap**
- Integrated frontend with backend and database, ensuring smooth data flow and functionality across modules
- Collaborated on database design and system integration using **MySQL + JDBC**
